AuctionMate must be given the categories used by the site in order to function properly. These categories are supplied by the site in a file named category.ini. This screen allow you to read the category.ini file into AuctionMate using the following steps:
1) Click File->Open
2) Locate and select the 'Category.ini' file
3) Click Open
When done click File->Mapping to return to the main grid or Setup->Users to work with the member setup screen
Close
